

Premium Waterproof Inkjet Film for Pigment and Dye Based Systems, including the Epson® UltraChrome™ K3 inks.

AccuArt™3 is a premium, waterproof inkjet film for the production of high-quality photopositives and photonegatives.

- Prints with Epson® UltraChrome™ K3 inks, pigment and dye-based inks
- Excellent density & clarity—D_{MAX} up to 4.0, D_{MIN} .12
- Dries instantaneously
- Impervious to water and humidity

Waterproof Inkjet Film for Dye Based Systems

AccuBlack™ waterproof inkjet film is specifically engineered for the creation of high-quality film positives and negatives—the perfect media for production settings where artwork positives and negatives need to be used repeatedly.

- For use with dye-based inks only
- Great density & clarity—D_{MAX} up to 4.2, D_{MIN} .07
- Ink dries instantaneously

ACCUMARK

Inkjet Film for Dye Based Systems

AccuMark™ inkjet film is the perfect combination of function and economy. This film offers clarity and translucency far surpassing vellum, with excellent stability at a fraction of the cost of other inkjet films.

- For use with dye-based inks only
- Good density & clarity—D_{MAX} up to 3.0, D_{MIN} .2
- Economical
