# Exposure Units

## 26-1KS Professional Exposure Unit

- Excellent for volume production
- Powerful 1000 watt metal halide lamp for minimum exposure times
- Vacuum frame for perfect photopositive to emulsion contact
- Integrator and photocell for exact exposure repeatability

The **26-1KS** is a rugged and reliable exposure unit for the volume commercial shop using any of our high quality photo resist film products. Complete with vacuum frame, digital display integrator and eight memory channels, the 26-1KS provides exact exposure repeatability for professional imaging results for all resolution requirements. This easy-to-use model includes a large 23" x 27" imaging area which is exposed to a powerful 1000 watt metal halide lamp for quick imaging. Reduce your turnaround time and add to your profitability by including the dependable 26-1KS in your production facility.
